

## Beer parlor 1T4

**Description:** Beer parlor is in copper design, thickness 3 mm with a brilliant finish.

1. number of dispense taps - 4 brass
2. number of advertising targets - 4 brass
3. cooling loop - 1x stainless steel
4. maximum flow(by flow cooling)
5. maximum pressure 3.5 bar
6. allowed media - beer, carbonated/non-carbonated soft drinks, certain sanitation solution

### Parameters:

Copper material, thickness 3 mm DN 108  
Inlet pipe 9\*12.5  
Hot water supply pipe DN 15  
Ice water inlet pipe 9\*12,5(ice water going through flow cooler)

### Dimensions of Cooling:

length 730 mm  
width 475 mm  
height 440 mm  
weight 47 kg  
weight of compressor 50 kg

### Cooling H100:

Cooling capacity – 1 748 watts  
Output in liters - 200.8 (100)  
Number of beer lines - 4 · stirrer  
With a pump Totton – displacement 7 m  
Capacity of water bath - 40 l  
Ice bank - 20 kg  
Compressor HP 1/3
